

Parent's Comments on first week of ABC of Soccer – Summer Camp Jul 4 to 8, 2011

FEEDBACK:

Thank you so much for making the kids have such an enjoyable week.

Jessica and Justin loved the soccer camp (as did their friends that they invited – Charles, Laurel and Nolan). They mentioned how knowledgeable the instructors were and how amazing the drills were but it was clear to me as well right from day one. They learned a lot in a short period of time. You can see how much you all love the game because you instilled it in the kids so quickly. Every day after camp they are talking about the 'world cup' and their record for this and that. And all that for so little (cost)!!!!

Jochen you did an amazing job with the drills and games and you are awesome with those kids. And please thank your helpers from us because the kids really liked them also.

Have a wonderful summer,

Aniko & Paul

Thank-you for such a great camp. My son Blair has really enjoyed his time with you learning the ropes of soccer play. You have spurred on not only his physical training in soccer, but also the spiritual. He has talked about the "wise and foolish builders" and has sung the song at home often this week. Thank-you for encouraging him in his walk with Christ.
